Research Interests

My research topics cover task planning and human-robot interaction for service robots. Currently, I am focused on enhancing *open-world planning and interaction* capabilities for home service robots to perform assistive household tasks.

Education

National University of Singapore *Jan 2023 - present*
Ph.D. student in Computer Science
Advisors: Prof. David Hsu

Harbin Institute of Technology, Shenzhen *Aug 2017 - Jun 2021*
B.Eng. in Automation, GPA: 93.08/100 (Ranking 1/70)
Visiting Exchange Student at UC Berkeley (2019 Fall - 2020 Summer), GPA: 3.93/4

Experience

Adaptive Computing Lab & Smart Systems Institute, NUS *July 2023 – present*
Graduate Research Assistant with Prof. David Hsu Singapore
- Leading the research project of designing systems and algorithms for household service robots. Designed MR remote multimodal interaction and open-world task planning algorithm for household robots.
- Maintaining robotics infrastructure and conducting research collaborations in human-robot interaction within the Smart Systems Institute. Contributed to the design of tactile-language models for service robots.

Robotic Perception and Intelligence Lab, SUSTech & CUHK *July 2021 – June 2022*
Research and Teaching Assistant with Prof. Max Q.-H. Meng Shenzhen, China
- Participated in the autonomous airport trolley collection robots research projects and built the perception, planning, and control system for robots to collect airport trolleys.
- Assisted undergraduate students in research projects related to service robots and helped prepare teaching materials for undergraduate courses.

Hybrid Robotics Lab, UC Berkeley *Mar 2020 – Sep 2020*
Undergraduate Research Student with Prof. Koushil Sreenath Berkeley, CA, USA
- Designed the robotic guide dog system and the corresponding hybrid human-robot framework to assist visually impaired people in navigating through narrow spaces.
- Contributed to the path planning in quadrupedal autonomous navigation with optimized jumping.

Selected Awards and Honors

- NUS Research Scholarship *2023*
- **Best Paper Award Finalist for Service Robotics at ICRA '21** *2021*
- Dean's Award at HITsz. *2021*
- First-class Undergraduate Academic Scholarship. *2018-2021*
- National Scholarship. *2018*

Professional Responsibilities

- *Journal Reviewing:* IEEE T-RO, IEEE RA-L, IEEE T-IE, IEEE T-ASE.
- *Conference Reviewing:* ICRA '22 '23 '24 '25, IROS '22 '24.
